Recitals-

A. The Honourable Mr. Justice Percy Ernest Joske, a Justice of the Commonwealth Industrial Court, a Justice of the Supreme Court of Australian Capital Territory, and a Justice of the Supreme Court of Northern Territory, donated to the University the sum of £1,000 for the establishment of a fund to provide a research award in Dental Science as a memorial to his father, Ernest Joske, and to the work, both inside and outside the University, which he performed for the profession of dentistry.

B. The donor directed that the sum be invested in securities authorised by the laws of the Commonwealth of Australia or any of its states or territories for the investment of trust funds or in debentures of or preference or ordinary shares or stock units in any company or in any other investment as the Council from time to time thinks fit.

It is provided as follows-

1. The sum of £1,000 and any accumulations and additions to the sum forms a fund called the ‘Ernest Joske Research Award’ (‘fund’) and the fund must be invested in such of the above-mentioned investments as the Council from time to time directs.

2. The award is made by the dean of the faculty of Medicine, Dentistry and Health Sciences on the recommendation of the head of Melbourne Dental School (‘MDS’).

3. (1) The award may be made only to a candidate who has been resident in Australia for not less than five years out of the seven years immediately preceding the year in which the award is made.

   (2) The award is made in respect of original work published not earlier than three years immediately preceding 1 January in the year in which the award is made.

   (3) The work must constitute an important contribution upon a subject relating to Dental Science.

4. No award is to be made to a person holding an appointment as professor, associate professor, reader or senior lecturer in any university.

5. The award must be made triennially-

   Provided that where no work is deemed worthy by the head of MDS, no award is to be made, and the time for making an award is accordingly extended year by year until an award is made. Thereafter the award continues to be made triennially subject to the same proviso as above.

6. The award may be made to a person notwithstanding that he or she was previously considered for its award.

7. The head of MDS may invite the recipient of the award to deliver a series of not more than twelve lectures in MDS.
8. The value of the award is the net income produced by the fund during the three years immediately preceding the year of award.

9. Any surplus or unexpended income of the fund must be added to capital.
